

Customer Success Story

California-based **healthcare facility upgrades** to the latest GP software to **manage daily operations better**

About the Client

Clients is a Southern California based Healthcare Facility. Their business brings people for various procedures and treatments into a wholistic living & healing environment. They used Dynamics GP integrated to 3 other major operational systems to help manage their entire facility.

Solution

- Analyze their existing legacy Dynamics system, and all of the system integrations
- Collaborate with the client, Microsoft, and the 3rd party system experts to upgrade and re-integrate their new systems
- Created advanced reporting and enhanced functionality in the newly upgraded Dynamics system.

Benefits

- ✓ Enhanced functionality through the latest Dynamics GP software
- ✓ Upgraded infrastructure for access, reporting and performance of the ERP system
- ✓ Compatibility and Compliance met for the latest systems and requirements
