

Customer Success Story

California Based **Raw Pet Food Manufacturer** Improves Productivity with **Dynamics 365 Business Central Revamp**

About the client:

A small family-owned company founded in 2005 in San Francisco, CA. The excellent local and sustainable sources allowed the company to produce quality raw pet food.

Our offerings to the client:

- DemandDynamics enabled the client with implementation solutions of new features in their already deployed Dynamics 365 Business Central Cloud solution.
- The team understood customer pain points through regular interactions and provided quick solutions, which proved beneficial for the client.
- The experts provided essential training based on Business Central core modules such as Accounting, Procurement, and Sales.

Benefits

- ✓ The client was able to leverage Business Central and optimize business performance.
- ✓ The company observed improved productivity in business processes.
- ✓ Extended training and support ensured enhanced work efficiency post-implementation.
